

Speakers and Moderators

ALPSTAR Initial conference, October 27th
and 28th 201, Chambéry, France

TOWARD CARBON NEUTRAL ALPS

**MAKE BEST PRACTICE
MINIMUM STANDARD**

SPEAKERS

Toni Aschwanden

toni.aschwanden@alpeninitiative.ch

Toni Aschwanden is responsible for international transport policy at the Alpine-Initiative, the Swiss NGO which is at the origin of the Swiss modal shift policy and campaigning for it's implementation (www.alpine-initiative.ch). He worked on several projects in the field of European freight transport and the protection of the Alps. He holds a master degree in political science and is a part-time post-graduate student in Sustainability Management.

Giovanni Bartesaghi

giovanni.bartesaghi@flanet.org

Giovanni Bartesaghi is a freelance in the field of energy planning, renewable energy, water resources and sustainable development. Since 1995 he is a collaborator of the Lombardy Foundation for the Environment (FLA) where he was a planning and research in the field of surface water (lakes and rivers) and renewable energy. He also collaborates with the Province of Como (energy planning), with the Lombardy Region and a number of Local Authorities of the Lombardy region.

Hubert Buhl

hubert.buhl@sonthofen.de

Hubert Buhl is the president of the Alpine Town of the Year Association, a network of Alpine towns which have been awarded the title of "Alpine Town of the Year" for their particular commitment to the implementation of the Alpine Convention. Buhl has been the mayor of the German town of Sonthofen since 1994. It's award as "Alpine Town of the Year 2005" has led to an even more efficient sustainable policy by building a biomass power station amongst other initiatives.

SPEAKERS

Baptiste Chatré

baptiste.chatre@alpconv.org

Baptiste Chatré studied Alpine Geography at Grenoble University and holds a PhD in Political Science from Paris Panthéon-Assas University. Has working for the PSAC since October 2010 as Project Officer in charge of External Partnerships, Climate Change, Transport Systems, Natural Hazards, and European Regional Policy.

Loïc Dautrey

ldautrey@regionpaca.fr

Loïc Dautrey is in charge of the department « Montagne » of the Region Provence-Alpes-Côte d'Azur. Adviser of the regional development program for nature activities, he takes part in the updating process of the "Inter-regional Convention for the Alpine Massif" (CIMA) and the "Inter-regional Operational Program of the Alpine Massif" (POIA). He also contributes to different projects and initiatives in the field of European mountain cooperation (Silmas, Alpstar).

Laurent Chanussot

laurent.chanussot@raee.org

Laurent Chanussot is in charge of efficient energy use and energy policy at Rhonealpennergie-Environnement in Lyon. He has been active in national and European initiatives in the field of energy management and renewable energies for 15 years. He is an expert on all aspects of promoting renewable energy projects and their implementation and is highly experienced in matters of sustainable development.

Henri Dupassieux

h.dupassieux@mairie-chambery.fr

Henri Dupassieux, deputy mayor of Chambéry in charge of sustainable development, municipal buildings, energy grids, health and fire protection. He is also vice president of the Greater Chambéry area in charge of transport and Intermodal transport. Chambéry is engaged in Agenda 21 and is developing a climate, air and energy plan. The gib heat network of the town will provide more than 55% of renewable energy in 2013.

Michel Dantin

secretariat.md@sp-eurodepute.eu

Michel Dantin is since 2009 a Member of the European Parliament and member of its Committee on Agriculture and Rural Development as well as a substitute member of the Committee on Transport and Tourism. Mr Dantin is a qualified agricultural technician and has served as an advisor to three ministers of agriculture in his career. Member of the Union for a Popular Movement, he was a municipal councillor of the city of Chambéry.

Michela Gaifami

michela.gaifami@lfu.bayern.de

Michela Gaifami is Project Officer at the Alpine Space Joint Technical Secretariat (JTS). The Alpine Space is the European Programme for the Alps that funded the Alpstar project; the JTS is the central contact point for public interest in the Programme, as well as for potential partners and selected operations, like ALPSTAR. The JTS staff supports projects during implementation and have an overview on all running projects.

SPEAKERS

Josias Gasser

Josias.gasser@gasser.ch

Josias F. Gasser is the Managing Director of Josias Gasser Building Materials Ltd based in Chur, Switzerland and an advocate of sustainable methods in construction. He holds a degree in economics and is a member of Chur City Council as a representative of the Green-Liberal Party of the canton of Grison. Mr Gasser had various teaching duties at Zurich University and other schools between 1980 and 2002.

Emmanuel Jeanjean

e.jeanjean@pnr-queyras.fr

Emmanuel Jeanjean is project manager at the Regional Natural Park of Queyras (PACA Region, France) in charge of the energy and climate action plan. He has 10 years of experience in energy management and renewable energies development for local authorities and is in charge of several European projects related to demand side management, energy education, wind energy, buildings performance, smart grids.

Adolf Gross

adolf.gross@vorarlberg.at

DI Dr. Adolf Groß studied at the Technical University in Graz Electrical Engineering/ Energy Economy. During his work as a research assistant he published numerous publications and research projects on the topics of energy efficiency and renewable energy sources. His dissertation was dealing with the technical risks and opportunities of a large-scale integration of photovoltaics. Since 1996, Dr. Groß is responsible for the energy sector within the Vorarlberg provincial government. Since 2011 he is head of department of Energy, climate and climate-related resources.

Benoit Leclair

bleclair@rhonealpes.fr

Benoit Leclair, is heat engineer and 14th Vice President of the Rhône Alpes Regional Council, in charge of Energy and Climate. Its theoretical and practical knowledge on climate and energy issues are key assets for the conception and the implementation of the different measures developed in the Rhône Alpes Region in favor of climate.

Isabelle Herlin

i.herlin@mairie-chambery.fr

Isabelle Herlin, a Deputy Mayor of the city of Chambéry, is responsible for international relations, decentralized cooperation and people with disabilities. She assumes additional roles in transport, development and adaptation of roads, buildings, and public facilities in connection with her main responsibilities. She is also working in the water sector and sustainable development which remains at the heart of her concerns.

Anja Lehmann

a.lehmann@baumgroup.de

Anja Lehmann studied Architecture at the University of Applied Sciences Dresden and Environmental Protection and Regional Planning at the Technical University of Dresden. She is working for B.A.U.M. Consult GmbH Munich since July 2007. Her area of work includes coordination and management of EU-funded projects as well as content related work focused on the topics sustainable mobility and renewable energies. Furthermore she works in projects concerning sustainable management in companies and organizations.

SPEAKERS

Helmuth Moroder

helmuth.moroder@gemeinde.bozen.it

Helmuth Moroder is the general director of the city of Bolzano, capital of the Italian province South Tyrol and Alpine Town of the Year 2009. Moroder is one of the fathers of the “Vinschger-Bahn”, a regional train with a very high degree of utilisation connecting the city of Merano with the Vinschau valley. For 13 years he was working on public transport systems. Moroder is also vice-president of CIPRA International.

Jernej Stritih

Jernej.stritih@gov.si

Jernej Stritih is the Director of the Slovenian Government Office of Climate Change since 2009. He is forester by training, but has mainly worked on environmental policy in transition countries, sustainable development, nature conservation and recently on transition to low carbon society. Co-founded environmental consultancy Oikos in Slovenia in 1989, served as State Secretary for Environment and Executive Director of the Regional Environmental Centre for Central and Eastern Europe. He was president of CIPRA Slovenia and vice president of CIPRA International.

Eriuccio Nora

nora.e@provincia.modena.it

Eriuccio Nora was co-founder and director of the Italian Coordination of Agenda 21. He was responsible for action plans for sustainable energy and for climate plans realised in a participative process on the local level for the Province of Modena and at a national level for the Agenda 21 coordination. Nora headed in the Province of Modena amongst others the sections environment, energy, climate and sustainable development.

Wolfgang Wimmer

w.wimmer@biomassehof-achental.de

Wolfgang Wimmer is the manager of the Ecological Model Achental, the Achental Corporation and Development Company and the Bioenergy-Centre Achental. The ecological model Achental is a partnership of nine Achental communities in the Bavarian-Tyrolean border area. They are cooperating in the regional development of tourism, agriculture, nature conservation and the expansion of renewable energy sources. A variety of aid programmes were implemented under the leadership of Wolfgang Wimmer as project manager.

Lydia Pedoth

lydia.pedoth@eurac.edu

Lydia Pedoth is a researcher at the European Academy of Bolzano, Institute for Applied Remote Sensing, specialised in vulnerability assessment with a focus on the development of socio-economic indicator systems for the assessment of adaptive capacity. She was involved in several EU projects dealing with Climate change adaptation and has experience in stakeholder involvement and participatory approaches for the development of policy support strategies.

Markus Zimmermann

Markus.Zimmermann@sg.ch

After his apprenticeship as a merchant and further professional education Markus Zimmermann led from 1989 to 1999 the council office (incl. construction management) of the municipality of Quarten. In 1999 he was elected as the mayor of the municipality of Mels (www.mels.ch). He administered this public function till the middle of 2008. Since then he is the substitute Leader of the office for spatial development and geoinformation of the canton St.Gallen.

MODERATORS

Sven Braden

sven.braden@aus.llv.li

Sven Braden joined the Climate Division of Liechtenstein's Office of Environmental Protection in 2007. One of his core responsibilities is the implementation of European and UN based climate legislation. As a member of the Liechtenstein delegation he participated within the international climate negotiations. In 2009 he co-initiated the LIFE Climate Foundation, a Liechtenstein based non-profit think tank that aims to bridge the gap between the environmental and financial worlds.

Alexandre Mignotte

alexandre.mignotte@cipra.org

Director of the French delegation of the CIPRA, Alexandre Mignotte works on sustainable development stakes in mountains with the use of human sciences tools and analysis. After a PhD in the Alpine Geography Institute in Grenoble, he worked a researcher in the University of Geneva. He continuously enriched his specific approach through different projects and exchanges in France and abroad.

Karin Feurstein

karin.feurstein@energieinstitut.at

Mag. (FH) Karin Feurstein has been working for the Energieinstitut Vorarlberg GmbH since July 2011 and is operationally responsible for the "Energy Future Vorarlberg" programme. The main focus of her work is the monitoring of the implementation process of 101 measures towards energy autonomy until 2020. Besides she is also responsible for the coordination of the communication campaign "Step by step to energy autonomy".

Wolfgang Pfefferkorn

wolfgang.pfefferkorn@cipra.org

Wolfgang Pfefferkorn has been working for Rosinak&Partner, a consultancy office in Vienna, since 1993 and for CIPRA International since 2004. His main working fields are: regional development, climate change, conflict management and knowledge transfer. Actually he is the co-ordinator of the CIPRA cc.alps project.

Andreas Götz

andreas.goetz@cipra.org

Andreas Götz, Executive Director of CIPRA International is an expert in sustainable development in the Alps and in the field of the Alpine Convention. Andreas has been leading CIPRA International since 1996 and was previously Executive Director of the Mountain Forest Project Foundation, Switzerland. He is a qualified barrister at law and was a partner at a lawyer's office in Switzerland.

Roberto Vaccaro

roberto.vaccaro@eurac.edu

After a degree in Environmental Science, a Master in Environmental Health and Safety Management and a Master MEA (Management Energia e Ambiente), Roberto Vaccaro works as researcher in the Institute for Renewable Energy of the European Academy of Bozen/Bolzano (Italy). Main topics of his research activity are the supporting of overall process to issue a Sustainable Energy Action Plans (SEAP) and the development of methodological approach to assess CO2 reduction of several actions foreseen in SEAP.
